

The Christmas Window Decoration Planner

Measure, pick a look and hang every window in the right order

1. Measure Your Windows

Write each number down before you shop, so everything fits the glass and the frame.

What to check	Your answer	Why it matters
Window width and height (inches)		Sets wreath and curtain light size
Glass, wood or vinyl frame		Decides suction, hooks or tape
Sill depth (inches)		Sets what can stand on the sill
Outlet within reach?		Plug-in or battery lights
Seen from the street or only inside?		Decides how bright to go
Budget per window		Sets your shopping list

2. Choose One Look Per Window

Pick one look and repeat it across the front of the house. Circle your choice.

Look	Style	Pairs well with
Classic	Evergreen wreath and red ribbon	Warm white lights
Glow	Lit stars and snowflakes	Dark evenings and bare glass
Cozy	Candles and mini wreaths	Kitchen and bedroom windows
Playful	Window clings	Kids rooms and glass doors
Sill scene	Village, mini trees, gnomes	Deep sills

3. How It Hangs (Hanging Map)

Decoration	How it stays up	Check
Wreath	Clear suction hanger or ribbon over the top	
Window clings	Press flat on clean dry glass	
Silhouette lights	Suction cup on the glass	
Icicle curtain lights	Hooks or tape along the frame	

Window candles	Suction cup or sit on the sill	
Sill pieces	Stand level and away from the glass edge	

4. Set a Budget and Plan the Rest

Item	Budget	Notes	Done?
Main decoration			
Hangers or hooks			
Lights			
Batteries or extension cord			
Ribbon or small extras			
Total			

- Spend first on the one piece people see from the street.
- Keep a little buffer for hooks, batteries and a cord.

5. Hanging Order

- Clean the glass and frame first so everything sticks.
- Hang the wreath or star in the center of the pane.
- Add lights along the frame next.
- Place sill pieces and candles last.
- Step outside and look from the sidewalk.

6. Safety and Final Checklist

- Keep cords away from curtains, walkways and pets.
- Use battery lights where outlets are far.
- Do not hang heavy pieces on weak adhesive.
- Keep candles flameless only.
- Take a photo once it is finished.
- Pack everything in a labeled box for next year.
